

Annapolis Yard Waste Collection Goes BROWN & GREEN

NO Plastic Bags Starting January 2017

Go Brown with Paper Bags & Bundles
Go Green with a City Cart
or Your Own Containers

NO MORE PLASTIC BAGS FOR YARD WASTE!

Start now to rid yard waste of plastic. Starting in January, yard waste will NOT be collected if it's bagged in plastic.

INSTEAD USE:

- Green yard waste carts offered by the City in 32- and 64-gallon sizes!
- Inexpensive compostable paper bags
- Your own container (marked with an X)
- Or, tie branches into a bundle

- Get your yard waste cart at 935 Spa Road, 8AM - 3PM
- Green yard waste carts are for yard waste only
- Limit 1 cart per household

BE RESPONSIBLE! CHANGE IS GOOD!

- Paper & yard waste are compostable into a reusable product.
- We can reduce use of plastic, a material made of oil.
- Plastic bags contaminate compost & increase processing cost.
- Do the right thing and go plastic-free!

What goes in yard waste collection?

Grass clippings, leaves, limbs and branches
